RE: American University STARS Report Submission 2021

Dear AASHE Staff and STARS Steering Committee,

My name is Jesse Cross and I am an Intern in the Office of Sustainability at American University. I have not been involved with the collection of any data for American University's STARS Report. I affirm that I have reviewed the report in full and that staff in AU's Office of Sustainability have responded to inconsistencies and errors that I identified. I attest that AU has successfully made the necessary changes to their report where revision was required prior to submission.

Sincerely,

A handwritten signature in black ink, appearing to read "Jesse Cross". The signature is written in a cursive style with a large initial "J" and "C".

Jesse Cross
